Dear Peter and Pau,

Hi! Receive lots of greetings from your happy beneficiary Carol.  
How are you? How are the rest of your family members?  
It's my sincere hope that you are all in good health, fine  
and happy like I am here in Upendo.

My main aim of writing this letter is to thank  
and appreciate the great trouble you are taking to see me through  
school. I am really working hard and giving studies my best so as  
to make you proud of me because I know you are interested  
in my success. As I await my final primary exam am really  
working hard in order to make it to the high school of my  
dreams. I will continue working hard when I join campus / university  
and I promise never ever to let u down.

Thankyou once more for impacting change in my life and I  
promise that your efforts to have me in school will not be  
wasted. God bless you very much.

Yours sincerely,  
Carolynne Njeri
